

FIND YOUR GENIUS

With so many hobbies and interests to choose from, the Skill Section of the Duke of Ed allows you to explore and discover talents within yourself that you may have only hoped for or dreamed about.

In some ways, this is the broadest section of The Duke of Ed, as it offers so many choices based on individual interests and passions, whether artistic, creative, musical, technical, cultural or some other area. By trying something entirely new, or undertaking an existing activity with renewed purpose, you will stimulate new interests or improve existing ones.

EVERY SECTION NEEDS A DIFFERENT ASSESSOR...

You'll need to identify someone as your assessor for each section. For Skill, it may be your art, language or music teacher, cadet commanding officer, or driving instructor. Make sure to ask them to be your assessor when you start!
