

CAMP CRAFT WORKSHEET

Please note: This form cannot be saved in a web browser. We recommend downloading the pdf file to your local computer drive prior to starting the assessment. When you finish this section assessment, save your form so you can review with your Assessor and group at your next meeting to go over the correct answers.

Part B - Section 5: Assessment of videos #23, #24, #25, #26, #27, #28, #29 - Camp-Craft

Participant Name	
Name of Group	

1. You can set up camp wherever you want as long as it can accommodate the size of your group. True or false?

- True
- False

2. When looking for a spot to pitch your tent

- Pick ground that is durable and level
- All of these answers are important
- Pick a location that has access to water
- Pick a location that is sheltered from the wind

3. Your tent fly needs to be a smooth, tight surface, as dips and creases in your fly will impede its performance and may cause your tent and its contents to get wet. True or False?

- True
- False

4. A campsite is more than a bunch of tents. What other areas are essential for a good campsite?

- All of these areas are essential for a good campsite
- Waste disposal area
- Kitchen/cook area
- Living room/Fire area

5. Where should you place your kitchen/cooking area? **Select the 2 that apply.**

- Away from your tent
- Out of the way of major foot traffic
- Next to my tent, in case it rains I can cook inside

6. When there are no bathroom facilities available simply find a discrete place to do your 'business.' True or false?

- True
- False

7. When digging a hole to dispose of human waste, it needs to be a minimum of how many meters from any water source?

- 25 Meters
- 75 Meters
- 50 Meters
- 100 Meters

8. Select all appropriate considerations for building a fire: **Select the 4 that apply.**

Am I allowed to have one? (Is a permit required? Is there a fire ban?)

A campfire is the best part of any trip.

How will I minimize the impact on the environment?

Is the campsite appropriate for a fire? (proximity to tents, a lot of dry debris)

Are the weather conditions right for a fire?(High winds for example)

A campfire will keep us warm

9. A good fire site should have at least how many metre(s) of clearance?

One Metre

Two Metres

Three Metres

10. I plan to use a fire for cooking so I don't need to bring a stove. True or false?

True

False

11. A good way to ensure your fire gets the oxygen it needs is to: **Select the 2 that apply.**

Carefully blow on it or fan it

Pack the various wood components tightly together

Bring a set of bellows

Arrange the fuel in a teepee style

12. My campfire should be: **Select the 2 that apply.**

Monitored at all times

Small for safety and minimising its impact on the environment

A bonfire to deter animals and keep us warm

13. When extinguishing your fire, you should:

Pour water on the embers, turn them over and repeat until cool to touch

Pour water until the flames are extinguished

14. Select the four GOOD cooking practices from the following:

Light your stove first then prep your food

Bring food to the stove, not stove to food

Find an area free of foot traffic

Set up your kitchen area away from your tent

It's ok to cook in your tent if its raining

Find level ground free of flammable materials

15. When refuelling a stove, how far away do you need to be from your cooking site?

Two metres

One metre

Three metres

16. What should you make sure is done after you finish cooking? **Select the 3 that apply.**

Shut off the stove completely

Leave the stove to cool

Completely disconnect the fuel before putting the stove away

Take a break and play some camp games

Clean up can be done in the nearest stream or lake

17. You are about to get in your tent for the night, which of the following should you do?

Select the 3 that apply.

Have your headlamp, some extra clothes and water easily accessible

Ensure you are dressed for the next day, you should sleep in your walking clothes

You need to go to the bathroom, go! Don't hold it!

Close your tent door quickly to avoid spending the night with mosquitos

Bring your hiking boots inside your tent

18. Your sleeping bag doesn't create heat, your body does. True or false?

True

False

19. What should you do when taking down your tent? **Select the 3 that apply.**

Pack your fly and tent body separately in the proper bags

Leave any tent pegs that are too difficult to pull out, as long as they are wooden

Shake your fly to remove dirt (and excess rainwater)

Leave small items like your headlamp or books inside for the next night

Remove everything from your tent to prevent damage

20. Your group is about to leave your campsite. What do you need to do? **Select the 2 that apply.**

Extinguish the fire

Ensure the group has a get together to thank one another for a successful camp

Carve your groups initials and the date on a tree to let others know you were there

Do a final check to make sure there is no garbage or equipment left behind

21. After you arrive home you should ensure your tent (and other equipment) is completely dry before storing, as storing wet equipment can lead to mould and permanent damage. True or false?

True

False

22. What does Leave No Trace mean? **Select the 2 that apply.**

Not completing a trip report

Not telling anyone your trip plans

Minimising your human impact on the environment

Means leaving no evidence you were there

23. Select four of the Leave No Trace principles from the list below:

Be considerate of others

Respect wildlife

Just do It

Go hard or go home

Treat nature like it is your home

Camp and travel on durable ground

Dispose of waste properly

24. While hiking, your group discovers a short cut. It is not an established trail, it will take you over lush vegetation, but you will arrive at camp two hours early. What should you do?

Half the group take the short cut and set up the campsite early for everyone else

Stick to the trail, you should hike on sturdy ground and avoid delicate vegetation

Take the short cut, it will help group morale to arrive early

25. You find a unique shaped piece of wood. What should you do?

Carve your initials in it, so others will know you were there

Take it home with you as a souvenir

Take a photo as way of preserving the memory and showing others the beauty of nature
