Research Skills and Project Management

1. Read the material and watch the video linked: “5-tips-to-improve-your-online-research” and “The C.R.A.P. test for evaluating websites”.
2. Discuss as a team the 5 tips contained in the first link and the points referred to in the video.
3. Download this document and use it to write your key personal learnings from the videos and the discussion.

What did I learn from the material and group discussion?
